AA CORPORATE CULTURE

Advance Aviation (AA) was established in December 2006 and prides itself in being the only true “VIP” helicopter operator in Thailand.

HIGHEST SAFETY STANDARD

Safety is our ultimate concern. That is why Advance Aviation has opted to buy BRAND NEW twin engine and single engine helicopters that integrate Eurocopter's latest technologies and design. Not only that our helicopters are flown by over-25-years-experienced pilots, accumulated over 6,000 flight hours, but also they are maintained daily by highly professional Eurocopter's personnels in the facility specially set up in Bangkok Thailand to ensure maximum

maintenance quality of our helicopter. Whether it is business, holiday or simply casual ride, Advance Aviation, the only true VIP helicopter service in Bangkok or all over Thailand, offers a specially tailored charter arrangement to best suit your desire with ultimate VIP treatment.

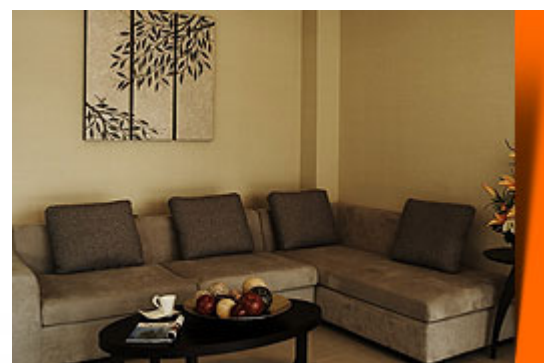

PROFESSIONAL MAINTENANCE

EC-135 and EC-130 are two of the most advanced technology and design helicopters which Eurocopter is producing. Both offer the highest level of safety in the industry and have unparalleled safety records. Both are also equipped with the latest technology and avionics available to ensure that our pilots will transport you smoothly and safely to your destination. Both also feature Fenestron® tail rotor system which offers a very quiet and exceptionally smooth ride. Eurocopter Group is a Division of EADS, a world leader in aerospace, defense and related services. Eurocopter, currently the world's No.1 helicopter manufacturer with a turnover of 3.8 billion Euros, orders for 615 new helicopters, and a 52% percent market share in the civil and public sectors. All aircrafts under our fleet are strictly maintained according to manufacturers' standard and local DCA codes.

SERVICE ORIENTATION

Advance Aviation prides itself in being the ultimate VIP service provider. From the moment our staff greet you till the mission is completed, the aircraft is entirely yours! All details will be taken care of and well co-ordinated to ensure a smooth journey not only during the flight but also transition before and after the flight. In-flight amenities such as soft drinks/mineral water, flight details will be offered. Personal Assistant is also available upon request.

For international arrival into Suvanbhumi Airport, we pick you up right when you step out of your plane, taking you through Immigration, Custom, and luggage handling, directly to our own lounge to board helicopter from our own helipad at our Operation Center just 10 minutes away from the Airport. There you can choose to fresh up, check your emails, enjoy drinks and snacks or quickly get on board. The lounge is also available for domestic VIPs who wish to board our helicopter from our Operation Center. For those who arrive at Don Muang Airport, we will usher you directly to our helicopter.

HUMAN RESOURCE DEVELOPMENT

We believe that our staffs are the most valuable resource of the company. We continuously invest to enhance our staff knowledge and expertise to bring our team to the forefront of VIP Aviation Industry.

HISTORY AND FUTURE PLAN

- **January 2006:**

Vice Chairman & owner of AA, Mr. Chai Nasylvanta decided that a helicopter would be ideal for his father, Privy Councillor Chaovana Nasylvanta who was in his late 70s, providing convenience, comfort and saving travelling time for his audience with His Majesty King Bhumibol Adulyadej at the Klai Kang Won Palace on Tuesdays.

- **December 2006:**

In order to recover some of the costs when the helicopter was idle on other days, he decided to charter it to serve VIPs and corporate users as the helicopter was already configured for VIP users plus the market looked quite promising. Thus Advance Aviation was born.

- **February 2008:**

First aircraft EC-135 was delivered with commencement of Advance Aviation's Operation.

- **January 2009:**

Second aircraft - single engine, EC-130 will be delivered and stationed in Phuket to serve corporate users and VIPs tourist market in Phuket.

- **January 2010:**

Chiang Mai and its provincial territory.

CHARTER FLIGHT SERVICE

Our main service is VIP chartered flights. Whether it's business, holiday or simply casual ride, Advance Aviation offers a specially tailored arrangement in our sumptuous decorated air-conditioned helicopter that best suits your desire. Picking you up from over 20 roof-top helipads in the heart of Bangkok and dropping you off or waiting to take you back from over 100 landing sites in Thailand.

Just let us know what you need, we will propose an efficient itinerary, suggest appropriate pick up/drop off points, along with quotation. If you need further information on location/direction. Should your destination does not have any helipad nearby, it is possible for us to arrange a temporary landing permit at a minimal fee provided that we are able to submit the request to the relevant authority 30 days in advance. Final approval is completely up to the authority.

Popular Destinations

SIGHTSEEING FLIGHT

Getting to know Bangkok City in another perspective with Advance Aviation

- Departure Venue: Operation Center (anywhere in Bangkok city could also be arranged)
- Destination: Operation Center - Chatuchak - Rama 7 - Thonburi - Rama 9 - Operation Center
- Landing Venue: Operation Center
- Flight Time: 50 minutes
- Special Services: Beverages are provided on board at all time

You would have a chance to see so many places while flying with us. From our Operation Center, we would take you to National Stadium first before flying further to Criminal Court and Rama 7. From there, we would fly along Thonburi to see our great Grand Palace. Then, you would have a chance to see Rama 9 Bridge and also our suspension bridge. After a while, we would fly along Chao Phaya River; Temple of Dawn will be visible to you on the right side of the river. The temple is best seen from the opposite bank of the river and it glistens in the sunlight during the day. On the way back you could also see our Financial District or our City Center before flying back to our Operation Center...
